Visiting Library Service Policy

Policy Type:	Public
Authority/Created:	Library Board
Date Created:	October 20, 2004
Date Reviewed:	March 19, 2025

Definition

Visiting Library Service (VLS) is the selection and delivery of library materials to homebound patrons.

Eligibility

Whitby residents who cannot visit the Library in person due to long-term illness, disability, or age. No referral is necessary. Individuals can submit their own application or have a relative or friend apply on their behalf.

Provision of Service

Library materials are selected by Library staff based on patron interest and requests and delivered every three weeks by volunteers from local agencies, service clubs, and the community. Accessible formats such as large print and audio are provided for patrons through the Library's own collections, interlibrary loan, and the Centre for Equitable Library Access (CELA).

Demand for the service may be greater than volunteer resources but the Library will maintain a waiting list and matches will be made as soon as possible. Library staff will also gather materials and maintain a file of reading interests for Visiting Library Service patrons who would like to have a family member make the deliveries.
